

DQ · ADQ

- TROX ceiling diffusers types DQ · ADQ in square and rectangular design, produced in aluminium (ADQ) or steel (DQ), consist of the face frame and the fixed air control blades configured in the form of diffusers

PRODUCT DESCRIPTION

TROX ceiling diffusers of the types DQ · ADQ consist of the face frame and the fixed air control blades configured in the form of diffusers.

They are suitable primarily for horizontal air flows in smooth ceilings. The discharge directions are adapted to the room geometry - on 1 to 4 sides. These ceiling diffusers are suitable for both supply air and exhaust air.

Technology

square, rectangular

55 – 830 l/s
200 – 3,000 m³/h
120 – 1,760 cfm

464, 564 and 589 mm
rectangular:
L: 473– 1,273 mm
H: 264 – 589 mm
