

SQUARE FACE STYLE (VARIANT)

XARTO-R1

SQUARE DIFFUSER FACE WITH CIRCULAR FACE STYLE

SQUARE DIFFUSER FACE WITH SQUARE FACE STYLE

CIRCULAR DIFFUSER FACE

HORIZONTAL SWIRLING AIR DISCHARGE

# **XARTO**

# FOR MORE REFINED COMFORT ZONES WITH SPECIAL DEMANDS ON ARCHITECTURE AND DESIGN, WITH **FIXED AIR CONTROL BLADES**

Circular and square ceiling swirl diffusers for high volume flow rates at low sound power levels and low differential pressure

- Nominal sizes 600, 625
- Volume flow rate range 31 265 l/s or 110 954 m<sup>3</sup>/h
- Diffuser face made of galvanised sheet steel, powder-coated
- For supply and extract air
- For variable and constant volume flows
- For all types of ceiling systems, and with an extended border also suitable for freely suspended installation
  Swirl unit inside for the best swirl effect and high induction levels
  Plenum box with acoustically optimised and lockable damper blade
  Ideal for comfort zones

Optional equipment and accessories

• Exposed diffuser face available in RAL Classic colours

General information 

### Application

- · Type XARTO ceiling swirl diffusers are used as supply air or extract air diffusers for comfort zones
- Attractive design element for building owners and architects with demanding aesthetic requirements
- Horizontal swirling supply air discharge for mixed flow ventilation
- The efficient swirl creates high induction levels, thereby rapidly reducing the temperature difference and airflow velocity (supply air variant)
- For variable and constant volume flows
- For supply air to room air temperature differences from -12 +10 K
- For room heights up to 4 m (lower edge of suspended ceiling)
- For all types of ceiling systems
- With an extended border also suitable for freely suspended installation (supply air variant)

#### Special features

- High induction results in a rapid reduction of the supply air to room air temperature difference and airflow velocity
- Separation of function and design. Various diffuser faces can be combined with a swirl element behind them
- For highest demands in design, even customer or project-specific designs are possible
- For all types of ceiling systems, and with an extended border also suitable for freely suspended installation

#### Nominal sizes

• 600, 625

#### Variants

- XARTO-Q\*: Square diffuser face, square face style
- XARTO-R\*: Square diffuser face, circular face style
- XARTO-C\*: Circular diffuser face, circular face style XARTO-\*-Z: Supply air
- XARTO-\*\*-A: Extract air

### Construction features

- Spigot suitable for circular ducts to EN 1506 or EN 13180
- Circular plenum boxes with horizontal spigot for nominal sizes 250, 400L, 400H and 600
- Spigot made of black ABS
- Spigots are fitted with a groove for a lip seal
- Retrofitting of the lip seal is possible at a later stage
- Damper blade and lip seal (optional) are factory fitted
- · Plenum box for supply air, with an optimised equalising element that ensures a uniform airflow through the diffuser face
- Simple installation of the diffuser face due to central fixingscrew with cap
- Damper blade and lip seal (optional) are factory fitted
- Simple installation of the diffuser face due to central fixing screw with decorative cap

## Materials and surfaces

- · Grille face made of galvanised sheet steel
- Swirl unit, spigot and damper blade made of ABS plastic, UL 94, V-0, flame retardant
- Equalising element made of polyester
- Diffuser face coated RAL 9010, pure white
- P1: Powder-coated, RAL Classic colour

### Standards and guidelines

• Sound power level of the air-regenerated noise measured according to EN ISO 5135

# Maintenance

- Low maintenance as construction and materials are not subject to wear
  Inspection and cleaning to VDI 6022
